

JOBST® for Men Ambition

Revolutionizing Men's Socks

#1 physician recommended

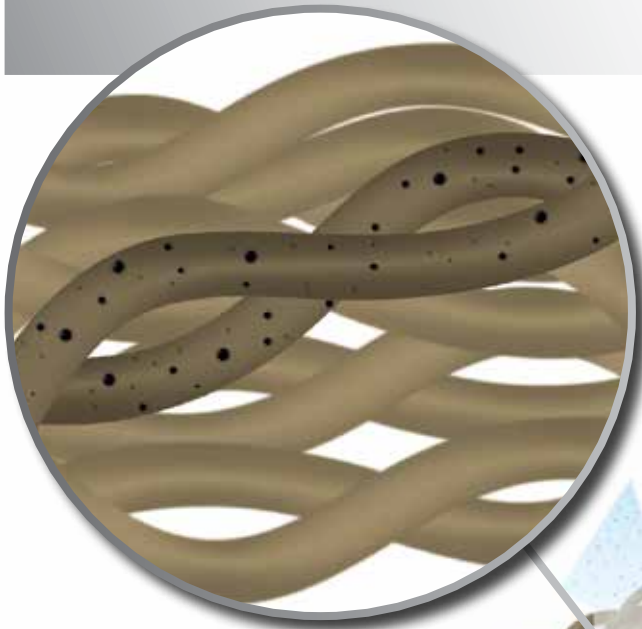

Comfort, Health and Style!

Carbon Technology

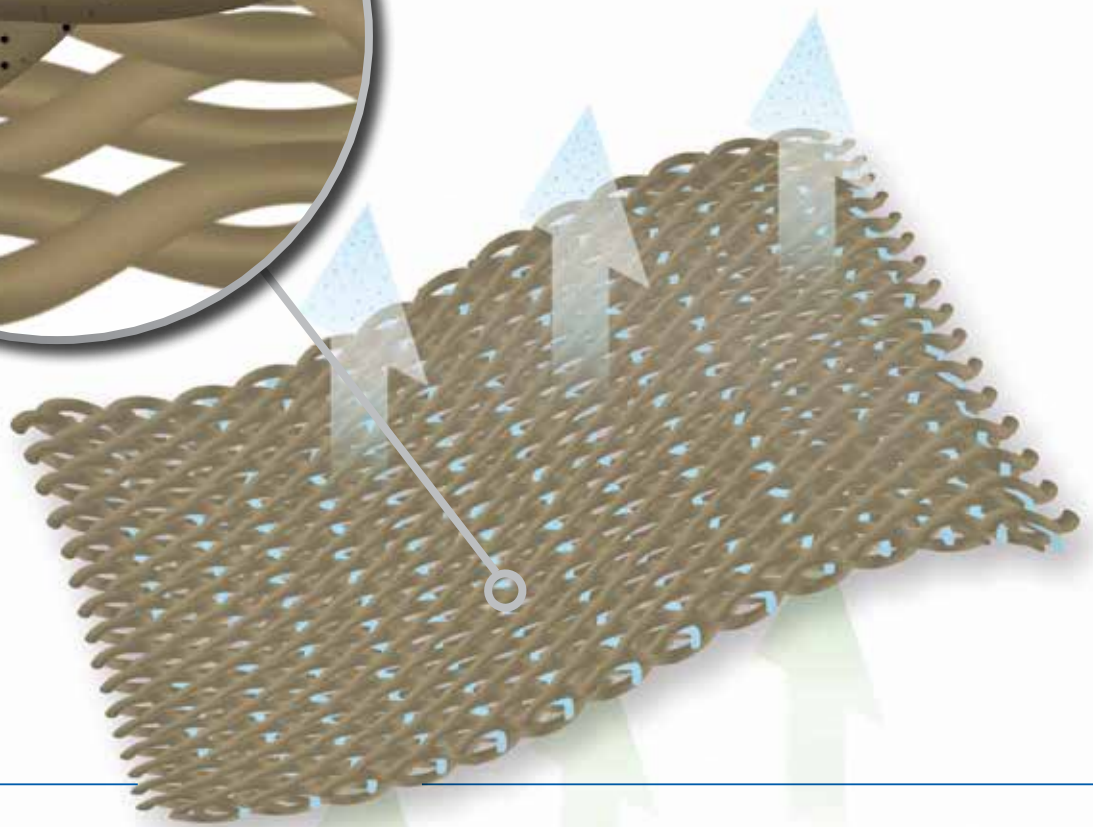

Activated carbon permanently embeds natural active particles into the fibers that form the fabric. These active particles greatly enhance the properties of the fabrics:

Odor Control Odors are absorbed into the active carbon particles and then renewed during routine laundering.

Durability Activated carbon continues to work because it is an integral part of the fiber. With every laundering the odor reduction feature is renewed.

Carbon particles embedded in the fiber.

for unmatched performance & comfort.

Cotton

Pure. Natural. Soft.

These are the attributes that make cotton the fabric of choice for the contemporary man who expects the highest levels of comfort.

The cotton used to make JOBST® forMen Ambition has been especially chosen for its unique properties. This soft, breathable fiber is then spun and knitted to create a sock that delivers the ultimate in aesthetics, comfort, and medical effectiveness.

Nothing feels better!

Cotton...
the ultimate in softness

JOBST® forMen Ambition

Revolutionizing Men's Socks

Stylish

Inspired by fashion hosiery, JOBST® forMen Ambition features a contemporary rib design and four popular color choices.

Comfortable

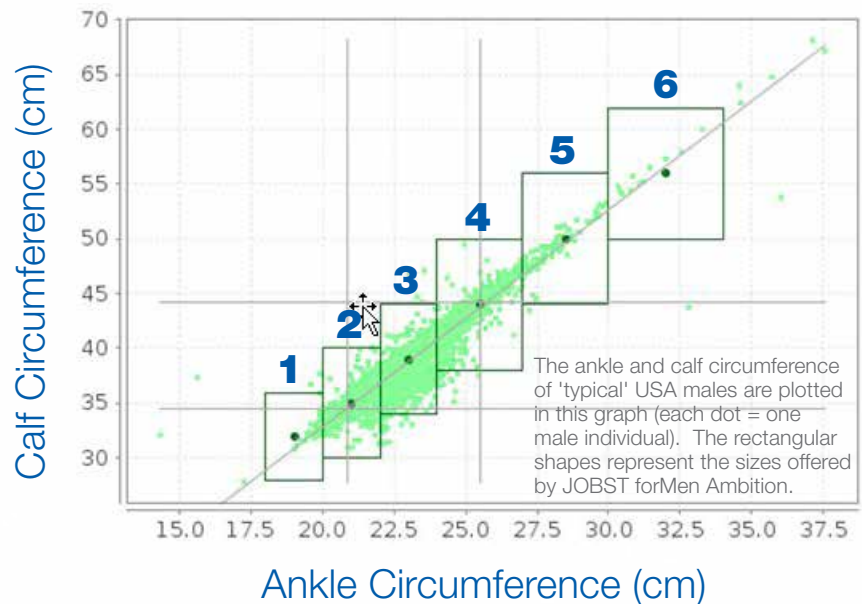

Balanced mix of soft, technologically advanced yarns ensure easy donning and comfortable wearing.

Effective

JOBST® forMen Ambition offers three compression ranges to satisfy the varying needs of today's healthcare professional, as well as the desires of men simply wishing to benefit from the use of compression therapy.

JOBST® forMen Ambition

Designed to fit more men,
more comfortably!

Cotton

high-quality cotton provides the feel men prefer and eliminates the synthetic feel common in other products.

Wide top band

improves comfort and keeps the sock from sliding.

Soft yarns

ensure easy donning and unmatched comfort.

Anatomic heel pocket

is especially designed for the male anatomy, further helping achieve a perfect fit.

Moisture control

microfiber technology helps wick moisture away leaving feet cool and dry.

Activated Carbon

embedded in the foot sole to provide a unique, natural odor-control feature that keeps feet fresh and comfortable all day.

Soft toe zone

is designed with smooth, flat seams and special yarns that eliminate possible pressure points.

The latest in a long line of stylish compression satisfy the demands and expectations

Perfect fit

- JOBST® forMen Ambition offers an improved size chart based on new population data specific to men.
- Regular and Long lengths
